

,Carolyn and Mark and Rachael came into school for our assembly.

**They told us a story that Jesus told
to the people that came to listen
to him long, long ago**

They told the story about the wise and foolish people who built houses.

The wise people built their house on a rock

The foolish people built their house on sand

When there was a storm the house on
the rock stood firm.

The house on the sand fell down as the ground was too soft.

Jesus wanted to remind people that it was better to build good foundations and make good choices so we would be strong in life.

We all sang a song with actions about staying strong.

A big thank you to Mark, Carolyn and Rachael for helping to understand the meaning of this story.
